

## Features

- OLYMPUS optics, outstanding stereoscopic view and good depth of field.
- Imported mini-motor, with reliable function, low-noise, high-accuracy.
- Coaxial illumination, imported bulbs and optical fiber, design in cold light source and strong light intensity.
- Japanese OMRON foot switch for auto continuous zoom and focus control.
- Packed in suitcase, portable and convenient for assembly and transportation.

## Specifications

Optics	
Type	Olympus SZ51
Eyepiece	10X Wide Field
Angle	45°
Pupillary Distance	50-76mm
Diopter Adjustment	±5D
Objective	Φ45mm
Magnification	Motorized Zoom 4X-20X
Field of View	8-65mm
Working Distance	200mm
Fine Adjustment	±20mm Foot Control
Illumination	
Type	Fiber Optic
Light Source	Halogen Bulb, 15V/150W
Control	Stepless Control
Intensity	≥80,000 Lux
Power	~220V ,50HZ
Base Part	
Length of Arm Extended	840mm
Elevation	±100mm
Foot Switch	Motorized Focus and Zoom

## Portable Surgical Microscope
